

Specialty-Specific Program Requirements: Program Director Qualifications

Effective as of October 18, 2023

Common Program Requirements are in bold

Specialty/Subspecialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
Allergy and Immunology	<p>II.A.3. Qualifications of the program director:</p> <p>II.A.3.a) must include specialty expertise and at least three years of documented educational and/or administrative experience, or qualifications acceptable to the Review Committee; <small>(Core)</small></p> <p>II.A.3.b) must include current certification in the specialty for which they are the program director by the American Board of Allergy and Immunology or by the American Osteopathic Board of Internal Medicine or the American Osteopathic Board of Pediatrics, or specialty qualifications that are acceptable to the Review Committee; <small>(Core)</small></p> <p>II.A.3.c) must include current medical licensure and appropriate medical staff appointment; and, <small>(Core)</small></p> <p>II.A.3.d) must include ongoing clinical activity. <small>(Core)</small></p> <p>II.A.3.e) must include leadership qualities and sufficient time and effort devoted to the program to provide day-to-day continuity of leadership and to fulfill the responsibilities of meeting the educational goals of the program. <small>(Detail)</small></p>
Anesthesiology	<p>II.A.3. Qualifications of the program director:</p> <p>II.A.3.a) must include specialty expertise and at least three years of documented educational and/or administrative experience, or qualifications acceptable to the Review Committee; <small>(Core)</small></p> <p>II.A.3.b) must include current certification in the specialty for which they are the program director by the American Board of Anesthesiology or by the American Osteopathic Board of Anesthesiology, or specialty qualifications that are acceptable to the Review Committee; <small>(Core)</small></p> <p>II.A.3.c) must include current medical licensure and appropriate medical staff appointment; and, <small>(Core)</small></p> <p>II.A.3.d) must include ongoing clinical activity. <small>(Core)</small></p>

Specialty/Subspecialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
	II.A.3.e) must demonstrate ongoing academic achievements in anesthesiology, including publications, the development of educational programs, or the conduct of research. ^(Core)
Adult Cardiothoracic Anesthesiology	<p>II.A.3. Qualifications of the program director:</p> <p>II.A.3.a) must include subspecialty expertise and qualifications acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.3.b) must include current certification in the subspecialty for which they are the program director by the American Board of Anesthesiology or subspecialty qualifications that are acceptable to the Review Committee. ^(Core)</p> <p>[Note that while the Common Program Requirements deem certification by a certifying board of the American Osteopathic Association (AOA) acceptable, there is no AOA board that offers certification in this subspecialty]</p> <p>II.A.3.c) must include current appointment as a member of the anesthesiology faculty at the primary clinical site; ^(Core)</p> <p>II.A.3.d) must include demonstration of completion of an adult cardiothoracic anesthesiology fellowship, or at least three years of participation in a clinical adult cardiothoracic anesthesiology fellowship as a faculty member;</p> <p>II.A.3.e) must include certification in advanced peri-operative transesophageal echocardiography (TEE) by the National Board of Echocardiography (NBE); ^(Core)</p> <p>II.A.3.f) must include at least three years of post-fellowship experience in clinical adult cardiothoracic anesthesiology; ^(Core)</p> <p>II.A.3.g) must include demonstration of ongoing academic achievements appropriate to the subspecialty, including publications, the development of educational programs, or the conduct of research; ^(Core)</p> <p>II.A.3.h) must include devotion of at least 50 percent of the program director’s clinical, educational, administrative, and academic time to adult cardiothoracic anesthesiology; and, ^(Core)</p> <p>II.A.3.i) must include privileges to perform peri-operative TEE. ^(Core)</p>
Anesthesiology Critical Care Medicine	<p>II.A.3. Qualifications of the program director:</p> <p>II.A.3.a) must include subspecialty expertise and qualifications acceptable to the Review</p>

Specialty/Subspecialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
	<p>Committee; and, ^(Core)</p> <p>II.A.3.b) must include current certification in the subspecialty for which they are the program director by the American Board of Anesthesiology or by the American Osteopathic Board of Anesthesiology, or subspecialty qualifications that are acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.c) must include privileges to practice critical care medicine and procedures relevant to the practice of critical care medicine; ^(Core)</p> <p>II.A.3.d) must include current appointment as a member of the anesthesiology faculty at the primary clinical site; ^(Core)</p> <p>II.A.3.e) must include demonstration of ongoing academic achievements with appropriate dissemination, including publications, the development of educational programs, or the conduct of research; ^(Core)</p> <p>II.A.3.f) must include at least three years of post-fellowship experience in the care of critically-ill patients; and, ^(Core)</p> <p>II.A.3.g) must include devotion of at least 50 percent of the program director’s clinical, educational, administrative, and academic time to critical care medicine. ^(Core)</p>
Obstetric Anesthesiology	<p>II.A.3. Qualifications of the program director:</p> <p>II.A.3.a) must include subspecialty expertise and qualifications acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.3.b) must include current certification in the specialty by the American Board of Anesthesiology or the American Osteopathic Board of Anesthesiology, or subspecialty qualifications that are acceptable to the Review Committee; ^(Core)</p> <p>[Note that while the Common Program Requirements deem certification by a member board of the American Board of Medical Specialties (ABMS) or a certifying board of the American Osteopathic Association (AOA) acceptable, there is no ABMS or AOA board that offers certification in this subspecialty]</p> <p>II.A.3.c) must include completion of an obstetric anesthesiology fellowship, or at least three years’ participation in a clinical obstetric anesthesiology fellowship as a faculty member; ^(Core)</p> <p>II.A.3.d) must include at least three years of post-fellowship experience in clinical obstetric</p>

	<p>anesthesiology; ^(Detail)</p> <p>II.A.3.e) must include current appointment as a member of the anesthesiology faculty at the primary clinical site; ^(Core)</p> <p>II.A.3.f) must include devotion of at least 50 percent of the program director’s clinical, educational, and academic time to the anesthetic care of pregnant women; and, ^(Core)</p> <p>II.A.3.g) must include demonstration of ongoing academic achievements appropriate to the subspecialty, including publications, the development of educational programs, or the conduct of research. ^(Core)</p>
Pediatric Anesthesiology	<p>II.A.3. Qualifications of the program director:</p> <p>II.A.3.a) must include subspecialty expertise and qualifications acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.3.b) must include current certification in the subspecialty for which they are the program director by the American Board of Anesthesiology or by the American Osteopathic Board of Anesthesiology, or subspecialty qualifications that are acceptable to the Review Committee. ^(Core)</p> <p>II.A.3.c) must include at least three years of post-fellowship experience in pediatric anesthesiology; ^{(Detail)†}</p> <p>II.A.3.d) must include current appointment as a member of the anesthesiology faculty at the primary clinical site; ^(Core)</p> <p>II.A.3.e) must include demonstration of ongoing academic achievements appropriate to the subspecialty, including publications, the development of educational programs, or the conduct of research; and, ^(Core)</p> <p>II.A.3.f) must include devotion of at least 50 percent of the program director’s clinical, educational, administrative, and academic time to pediatric anesthesiology. ^(Core)</p>
Pediatric Cardiac Anesthesiology	<p>II.A.3.a) must include subspecialty expertise and qualifications acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.b) must include current certification in the subspecialty of pediatric anesthesiology or adult cardiothoracic anesthesiology by the American Board of Anesthesiology or by the American</p>

Specialty/Subspecialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
	<p>Osteopathic Board of Anesthesiology, or subspecialty qualifications that are acceptable to the Review Committee; ^(Core)</p> <p>[Note that while the Common Program Requirements deem certification by a member board of the American Board of Medical Specialties (ABMS) or a certifying board of the American Osteopathic Association (AOA) acceptable, there is no ABMS or AOA board that offers certification in this subspecialty.]</p> <p>II.A.3.b).(1) If certified in adult cardiothoracic anesthesiology, the program director must demonstrate experience, expertise, and scholarship in pediatric cardiac anesthesiology. ^(Core)</p> <p>II.A.3.c) must include current appointment as a member of the pediatric anesthesiology faculty at the primary clinical site; ^(Core)</p> <p>II.A.3.d) must include demonstration of completion of a pediatric cardiac anesthesiology fellowship, and/or at least three years of participation in a clinical pediatric cardiac anesthesiology fellowship as a faculty member; ^(Core)</p> <p>II.A.3.e) must include at least three years of post-fellowship experience in clinical pediatric cardiac anesthesiology; ^(Core)</p> <p>II.A.3.f) must include demonstration of ongoing academic achievements appropriate to the subspecialty, including publications, the development of educational programs, or the conduct of research; and, ^(Core)</p> <p>II.A.3.g) must include devotion of at least 50 percent of the program director’s clinical, educational, administrative, and academic time to pediatric cardiac anesthesiology. ^(Core)</p>
Regional Anesthesiology and Acute Pain Medicine	<p>II.A.3. Qualifications of the program director:</p> <p>II.A.3.a) must include subspecialty expertise and qualifications acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.3.b) must include current certification in the specialty by the American Board of</p>

Specialty/Subspecialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
	<p>Anesthesiology or the American Osteopathic Board of Anesthesiology, or subspecialty qualifications that are acceptable to the Review Committee; ^(Core)</p> <p>[Note that while the Common Program Requirements deem certification by a member board of the American Board of Medical Specialties (ABMS) or a certifying board of the American Osteopathic Association (AOA) acceptable, there is no ABMS or AOA board that offers certification in this subspecialty]</p> <p>II.A.3.c) must include current appointment as a member of the anesthesiology faculty at the primary clinical site; ^(Core)</p> <p>II.A.3.d) must include completion of a regional anesthesiology and acute pain medicine fellowship, or at least three years’ participation in a regional anesthesiology and acute pain medicine fellowship as a faculty member; ^(Core)</p> <p>II.A.3.e) must include at least three years of post-fellowship experience in regional anesthesiology and/or acute pain medicine; ^(Core)</p> <p>II.A.3.f) must include devotion of at least 50 percent of the program director’s clinical, educational, administrative, and academic time to regional anesthesiology and acute pain medicine; and, ^(Core)</p> <p>II.A.3.g) must include demonstration of ongoing academic achievements appropriate to the subspecialty, including publications, the development of educational programs, or the conduct of research. ^(Core)</p>
Colon and Rectal Surgery	<p>II.A.3.a) must include specialty expertise and at least three years of documented educational and/or administrative experience, or qualifications acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.b) must include current certification in the specialty for which they are the program director by the American Board of Colon and Rectal Surgery (ABCRS) or specialty qualifications that are acceptable to the Review Committee; ^(Core)</p> <p>[Note that while the Common Program Requirements deem certification by a certifying board of the American Osteopathic Association (AOA) acceptable, there is no AOA board that offers certification in this specialty]</p> <p>II.A.3.b).(1) The Review Committee only accepts ABCRS colon and rectal surgery certification. ^(Core)</p>

Specialty/Subspecialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
	<p>II.A.3.c) must include current medical licensure and appropriate medical staff appointment; ^(Core)</p> <p>II.A.3.d) must include ongoing clinical activity; and ^(Core)</p> <p>II.A.3.e) must include membership on the medical staff of either the sponsoring institution or a participating site. ^(Core)</p>
Dermatology	<p>II.A.3. Qualifications of the program director:</p> <p>II.A.3.a) must include specialty expertise and at least three years of documented educational and/or administrative experience, or qualifications acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.b) must include current certification in the specialty for which they are the program director by the American Board of Dermatology or by the American Osteopathic Board of Dermatology, or specialty qualifications that are acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.c) must include current medical licensure and appropriate medical staff appointment; ^(Core)</p> <p>II.A.3.d) must include ongoing clinical activity; and, ^(Core)</p> <p>II.A.3.e) must include a minimum of one year of documented experience serving as a core faculty member for an ACGME-accredited dermatology program, or specialty qualifications that are acceptable to the Review Committee. ^(Core)</p>
Pediatric Dermatology	<p>II.A.3. Qualifications of the program director:</p> <p>II.A.3.a) must include subspecialty expertise and qualifications acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.b) must include current certification in the subspecialty for which they are the program director by the American Board of Dermatology or by the American Osteopathic Board of Dermatology, or subspecialty qualifications that are acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.c) must include at least three years of patient care experience as a pediatric dermatologist after fellowship; and, ^(Core)</p> <p>II.A.3.d) must include at least one year of post-fellowship experience as a faculty member in graduate medical education in dermatology or pediatric dermatology; or qualifications acceptable to the Review</p>

Specialty/Subspecialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
	Committee. ^(Core)
Micrographic Surgery and Dermatologic Oncology	<p>II.A.3. Qualifications of the program director:</p> <p>II.A.3.a) must include subspecialty expertise and qualifications acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.3.b) must include current certification in the subspecialty for which they are the program director by the American Board of Dermatology or by the American Osteopathic Board of Dermatology, or subspecialty qualifications that are acceptable to the Review Committee. ^(Core)</p> <p>II.A.3.c) must include completion of an ACGME- or AOA-accredited procedural dermatology or micrographic surgery and dermatologic oncology fellowship, an American College of Mohs Surgery-approved fellowship, or experience as a program director of a dermatologic surgery fellowship program for at least 10 years; ^(Core)</p> <p>II.A.3.d) must include at least six years of patient care experience as a dermatologist and dermatologic surgeon; ^(Core)</p> <p>II.A.3.e) must include at least three years of experience as a teacher in graduate medical education in dermatology and dermatologic surgery; and, ^(Core)</p> <p>II.A.3.f) must include an ongoing clinical practice in micrographic surgery and dermatologic oncology that includes personal performance of key aspects of micrographic surgery and dermatologic oncology as the fellow observes. ^(Core)</p>
Diagnostic Radiology	<p>II.A.3. Qualifications of the program director:</p> <p>II.A.3.a) must include specialty expertise and at least three years of documented educational and/or administrative experience, or qualifications acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.b) must include current certification in the specialty for which they are the program director by the American Board of Radiology or by the American Osteopathic Board of Radiology, or specialty qualifications that are acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.b).(1) The Review Committee accepts only ABMS and AOA certification as acceptable qualifications for program director certification. ^(Core)</p> <p>II.A.3.c) must include current medical licensure and appropriate medical staff appointment; and, ^(Core)</p>

Specialty/Subspecialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
	<p>II.A.3.d) must include ongoing clinical activity. (Core)</p> <p>II.A.3.e) should include demonstration of an active practice in radiology. (CoreF)</p>
Interventional Radiology	<p>II.A.3. Qualifications of the program director:</p> <p>II.A.3.a) must include specialty expertise and at least three years of documented educational and/or administrative experience, or qualifications acceptable to the Review Committee; (Core)</p> <p>II.A.3.b) must include current certification in the specialty for which they are the program director by the American Board of Radiology (ABR) or by the American Osteopathic Board of Radiology, or specialty qualifications that are acceptable to the Review Committee; (Core)</p> <p>II.A.3.b).(1) The program director must have certification by either the ABR or the American Osteopathic Board of Radiology (AOBR) in interventional radiology/diagnostic radiology, or in diagnostic radiology with subspecialty certification in vascular and interventional radiology. (Core)</p> <p>II.A.3.b).(2) The Review Committee accepts only ABMS and AOA certification as acceptable qualifications for program director certification. (Core)</p> <p>II.A.3.c) must include current medical licensure and appropriate medical staff appointment; and, (Core)</p> <p>II.A.3.d) must include ongoing clinical activity. (Core)</p> <p>II.A.3.e) must include demonstration of commitment of at least 80 percent of his or her clinical time in the specialty and to the administrative and educational activities of the interventional radiology program; (Core)</p>
Abdominal Radiology	<p>II.A.3. Qualifications of the program director:</p> <p>II.A.3.a) must include subspecialty expertise and qualifications acceptable to the Review Committee; and, (Core)</p> <p>II.A.3.a).(1) post-residency experience in abdominal radiology, including fellowship education and training, or five years of practice in the subspecialty; (Core)</p> <p>II.A.3.a).(2) experience as an educator and supervisor of fellows in abdominal radiology; and, (Core)</p> <p>II.A.3.a).(3) at least three years’ experience as a faculty member in an ACGME-accredited or AOA-approved diagnostic radiology or interventional radiology residency, or abdominal radiology fellowship program. (Core)</p>

Specialty/Subspecialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
	<p>II.A.3.b) must include current certification in the subspecialty for which they are the program director by the American Board of Radiology, or subspecialty qualifications that are acceptable to the Review Committee. ^(Core)</p> <p>[Note that while the Common Program Requirements deem certification by a certifying board of the American Osteopathic Association (AOA) acceptable, there is no AOA board that offers certification in this subspecialty]</p> <p>II.A.3.c) must include devotion of at least 80 percent of professional clinical contributions in abdominal radiology; and, ^(Core)</p> <p>II.A.3.d) must include devotion of sufficient time to fulfill all responsibilities inherent to meeting the educational goals of the program. ^(Core)</p>
Musculoskeletal Radiology	<p>II.A.3. Qualifications of the program director:</p> <p>II.A.3.a) must include subspecialty expertise and qualifications acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.3.a).(1) This must include post-residency experience in musculoskeletal radiology, including fellowship education or five years of practice focused in musculoskeletal radiology. ^(Core)</p> <p>II.A.3.a).(2) This must include experience as an educator and supervisor of fellows in musculoskeletal radiology. ^(Core)</p> <p>II.A.3.a).(3) This must include at least three years’ experience as a faculty member in an ACGME-accredited or American Osteopathic Association (AOA)-approved residency or fellowship program. ^(Core)</p> <p>II.A.3.b) must include current certification in the subspecialty for which they are the program director by the American Board of Radiology, or subspecialty qualifications that are acceptable to the Review Committee. ^(Core)</p> <p>[Note that while the Common Program Requirements deem certification by a certifying board of the American Osteopathic Association (AOA) acceptable, there is no AOA board that offers certification in this subspecialty]</p> <p>II.A.3.c) must include devotion of at least 80 percent of professional clinical contributions in musculoskeletal radiology; and, ^(Core)</p>

Specialty/Subspecialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
	II.A.3.d) must include devotion of sufficient time to fulfill all responsibilities inherent to meeting the educational goals of the program. ^(Core)
Neuroradiology	<p>II.A.3. Qualifications of the program director:</p> <p>II.A.3.a) must include subspecialty expertise and qualifications acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.b) must include current certification in the subspecialty for which they are the program director by the American Board of Radiology or by the American Osteopathic Board of Radiology, or subspecialty qualifications that are acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.c) must include at least three years’ experience as a faculty member in an ACGME-accredited diagnostic radiology residency or neuroradiology fellowship program; and, ^(Core)</p> <p>II.A.3.d) should include at least 80 percent of his or her time spent in the practice of neuroradiology. ^(Core)</p>
Nuclear Radiology	<p>II.A.3. Qualifications of the program director:</p> <p>II.A.3.a) must include subspecialty expertise and qualifications acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.a).(1) This must include post-residency experience in nuclear radiology, including fellowship education. ^(Core)</p> <p>II.A.3.a).(2) This must include at least three years’ experience as a faculty member in an ACGME-accredited diagnostic radiology, interventional radiology, or nuclear medicine residency or nuclear radiology fellowship program. ^(Core)</p> <p>II.A.3.b) must include current certification in the subspecialty for which they are the program director by the American Board of Radiology, or subspecialty qualifications that are acceptable to the Review Committee. ^(Core)</p> <p>[Note that while the Common Program Requirements deem certification by a certifying board of the American Osteopathic Association (AOA) acceptable, there is no AOA board that offers certification in this subspecialty]</p> <p>II.A.3.b).(1) In lieu of subspecialty certification by the American Board of Radiology, the Review</p>

Specialty/Subspecialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
	<p>Committee only accepts current certification by the American Board of Nuclear Medicine or the American Osteopathic Board of Nuclear Medicine. ^(Core)</p> <p>II.A.3.c) must include devotion of at least 80 percent of professional clinical contributions in nuclear radiology; and, ^(Core)</p> <p>II.A.3.d) must include devotion of sufficient time to fulfill all responsibilities inherent to meeting the educational goals of the program. ^(Core)</p>
Pediatric Radiology	<p>II.A.3. Qualifications of the program director:</p> <p>II.A.3.a) must include subspecialty expertise and qualifications acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.3.a).(1) This must include post-residency experience in pediatric radiology, including an ACGME-accredited fellowship program. ^(Core)</p> <p>II.A.3.a) (2) This must include at least three years’ experience as a faculty member in an ACGME-accredited or AOA-approved residency or fellowship program. ^(Core)</p> <p>II.A.3.b) must include current certification in the subspecialty for which they are the program director by the American Board of Radiology or by the American Osteopathic Board of Radiology, or subspecialty qualifications that are acceptable to the Review Committee. ^(Core)</p> <p>II.A.3.b).(1) Other acceptable qualifications include possession of the ABR Certificate of Added Qualifications. ^(Core)</p> <p>II.A.3.c) must include devotion of at least 80% of professional clinical contributions in pediatric radiology; and, ^(Core)</p> <p>II.A.3.d) must include devotion of sufficient time to fulfill all responsibilities inherent to meeting the educational goals of the program. ^(Core)</p>
Emergency Medicine	<p>II.A.3. Qualifications of the program director:</p> <p>II.A.3.a) must include specialty expertise and at least three years of documented educational and/or administrative experience, or qualifications acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.b) must include current certification in the specialty for which they are the program director by the American Board of Emergency Medicine or by the American Osteopathic Board of Emergency Medicine, or specialty qualifications that are acceptable to the Review Committee;</p>

Specialty/Subspecialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
	<p>(Core)</p> <p>II.A.3.b).(1) The Review Committee for Emergency Medicine will only consider ABMS and AOA board certification as acceptable program director certification qualifications. (Core)</p> <p>II.A.3.c) must include current medical licensure and appropriate medical staff appointment; and, (Core)</p> <p>II.A.3.d) must include ongoing clinical activity. (Core)</p> <p>II.A.3.e) must be a core physician faculty member; (Core)</p> <p>II.A.3.f) must include demonstrated experience in a leadership role; and, (Core)</p> <p>II.A.3.g) must include evidence of ongoing involvement in scholarly activity, including peer-reviewed publications. (Core)</p>
Emergency Medical Services	<p>II.A.3. Qualifications of the program director:</p> <p>II.A.3.a) must include subspecialty expertise and qualifications acceptable to the Review Committee; and, (Core)</p> <p>II.A.3.a).(1) This must include at least three years’ experience as a core physician faculty member in an ACGME-accredited emergency medicine program or emergency medical services program; (Core)</p> <p>II.A.3.b) must include current certification in the subspecialty for which they are the program director by the American Board of Emergency Medicine or by the American Osteopathic Board of Emergency Medicine, or subspecialty qualifications that are acceptable to the Review Committee. (Core)</p> <p>II.A.3.c) continuation in his or her position for a length of time adequate to maintain continuity of leadership and program stability; and, (Detail)</p> <p>II.A.3.d) must include current clinical activity in the practice of emergency medical services; and, (Core)</p> <p>II.A.3.e) should include demonstrated participation in academic societies and educational programs designed to enhance his or her educational and administrative skills. (Core)</p>
Family Medicine	<p>II.A.3. Qualifications of the program director:</p> <p>II.A.3.a) must include specialty expertise and at least three years of documented educational and/or administrative experience, or qualifications acceptable to the Review</p>

Specialty/Subspecialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
	<p>Committee; ^(Core)</p> <p>II.A.3.b) must include current certification in the specialty for which they are the program director by the American Board of Family Medicine or by the American Osteopathic Board of Family Physicians, or specialty qualifications that are acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.b).(1) The Review Committee for Family Medicine only accepts ABMS and AOA certification for the program director. ^(Core)</p> <p>II.A.3.c) must include ongoing clinical activity; and, ^(Core)</p> <p>II.A.3.d) must include previous leadership experience. ^(Core)</p>
Internal Medicine	<p>II.A.3. Qualifications of the program director:</p> <p>II.A.3.a) must include specialty expertise and at least three years of documented educational and/or administrative experience, or qualifications acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.b) must include current certification in the specialty for which they are the program director by the American Board of Internal Medicine (ABIM) or by the American Osteopathic Board of Internal Medicine (AOBIM), or specialty qualifications that are acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.b).(1) The Review Committee only accepts current Board certification in internal medicine from the ABIM or AOBIM. ^(Core)</p> <p>II.A.3.c) must include current medical licensure and appropriate medical staff appointment; and, ^(Core)</p> <p>II.A.3.d) must include ongoing clinical activity. ^(Core)</p>
Adult Congenital Heart Disease	<p><u>Currently in Effect (7/1/2023)</u></p> <p>II.A.3. Qualifications of the program director:</p> <p>II.A.3.a) must include subspecialty expertise and qualifications acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.3.a).(1) The program director must have administrative experience and at least three years of participation as an active faculty member in an ACGME-accredited fellowship in internal medicine cardiovascular disease, pediatric cardiology, or ACHD. ^(Core)</p>

Specialty/Subspecialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
	<p>II.A.3.b) must include current certification in the subspecialty for which they are the program director by the American Board of Internal Medicine (ABIM) or subspecialty qualifications that are acceptable to the Review Committee. ^(Core)</p> <p>[Note that while the Common Program Requirements deem certification by a certifying board of the American Osteopathic Association (AOA) acceptable, there is no AOA board that offers certification in this subspecialty]</p> <p>II.A.3.b).(1) The Review Committee only accepts current ABIM certification in ACHD. ^(Core)</p> <p><u>Future Effective Date (7/1/2024)</u></p> <p>II.A.3. Qualifications of the program director:</p> <p>II.A.3.a) must include subspecialty expertise and qualifications acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.3.a).(1) The program director must have at least three years of documented educational and/or administrative experience in an ACGME-accredited fellowship in internal medicine cardiovascular disease, pediatric cardiology, or ACHD. ^(Core)</p> <div style="border: 1px solid black; padding: 5px; margin: 10px 0;"> <p>Subspecialty-Specific Background and Intent: The educational/administrative experience can be as program director, associate program director, core faculty member, or faculty member for an ACGME accredited cardiovascular disease, pediatric cardiology, or ACHD. The experience does not include time spent as a fellow. Teaching/administrative experience is cumulative across multiple programs.</p> </div> <p>II.A.3.b) must include current certification in the subspecialty for which they are the program director by the American Board of Internal Medicine (ABIM) or subspecialty qualifications that are acceptable to the Review Committee. ^(Core)</p> <p>[Note that while the Common Program Requirements deem certification by a certifying board of the American Osteopathic Association (AOA) acceptable, there is no AOA board that offers certification in this subspecialty.]</p> <p>II.A.3.b).(1) The Review Committee only accepts current ABIM certification in ACHD. ^(Core)</p>
